TO STRENGTHEN EUROPE'S CRITICAL RAW MATERIALS STRATEGY

As the follow-up of SCRREEN2, aligned with the global EU strategy and in particular the CRM Act, SCRREEN3 aims at continuing to flexibly support the Commission in policy making related to Critical Raw Materials and improve data and knowledge on all screened raw materials of the CRM 2023 assessment exercise.

OBJECTIVES

- Strengthening expert capacity to support the Commission in the analysis of the future supply and demand of raw materials, technology gaps and innovation potential along the raw materials value chains.
- Improving EU data and knowledge on all screened raw materials.
- Flexibly support the Commission in policy making related to CRMs in general or linked to specific applications or sectors: as well in relevant events organized by the Commission.
- Clustering activities with other relevant selected projects and raising awareness.

The SCRREEN Network is operated by the H2020 SCRREEN3 Project

SCRREEN3 is coordinated by the French Geological
Survey (BRGM)
